EKTA CRANE ENGINEERING WORKS

Manufacturer, Supplier and Girder Cranes, Electric Wire Rope Hoist,
End Carriages, EOT Cranes & Lifting Accessories & Trading etc.

About Us :

Ekta Crane engineering Works is a manufacturer of standard and custom built lifting appliances and materials handling equipments in Mumbai, India, Our Promoters Mr. Dharmendra & A.B. Rajbhar has been designing cranes and hoists since 1998.

We started Manufacturing in Mumbai in 2000

The main Objective of EKTA Crane concepts and products is always the same-to-help people who work with them
The aim is to make it easier to handle and lift heavy loads, Increasing productivity and enhance production

We have a wide range of customer base in Maharashtra, all over the India and abroad countries too. The repeat business given by these happy customers reflects their confidence in our practice of being responsive and responsible.

OUR PRODUCT RANGE

EOT CRANES (DOUBLE GIRDER CRANES)

We manufacture strong and reliable Double Girder Cranes which are widely used in various industrial applications. Our products are advanced in quality and are made of stainless metal components.

Features:

Advanced quality | Highly sustainable | Safe and reliable

Capacity In Tonnes	Span Mtr.	Lift Mtr.	Hoist Speed Mtr.	CT Speed Mtr.	Wire rope Dia/No. of falls	Head Room	LT Wheel base M.	Crane Weight in Tonner

15	6	20	6	4	15	12	1	1700	1850	1450	1100
20	6	20	6	4	20	12	1	2000	2000	1500	1200

Note : All specifications are approximate May change as per requirement

CRAB HOIST

We are engaged in providing high quality range of Crab Hoist manufactured and devised of industrial uses. They are reliable, sustainable, best in size and are provided in various customized varieties.

es:

Sustainable variety | Advanced quality | Highly stronger than other product

END CARRIAGES

We are the first choice of the market and provide unmatched varieties of products for several industrial applications. These are all duly verified on several quality parameters and are provided at minimum market price range.

JIB CRANES

We understand the market demand and provide high quality range of Jib Cranes which are highly Installed in various industrial firms. Our products are highly reliable, strong in quality, long functional, sustainable and Hassle free performance are nominal in price range.

GOODS LIFT

es:

Designed to suit client's specific requirement using superior quality raw material and bought out items

Manufactured in capacities ranging from 0.5 tons to 7.5 tons with normally cage size of 3 mtr x 3 mtr x 3 mtr with or without collapsible gate with required lift and upto ground + 10 floor

Goods Lift / Cage Lift are guided in Roller Guide (C-section) with hoisting and lowering operations performed by our electric wire rope hoist

Operation is through interlocked push buttons and limit switches are provided for safety

Chain Pulley Block & Chain Hoist

Features: it is very convenient for use,
we can without power and electricity and long lasting.
Very less expensive and easy maintenance

Parmanent Magnet Lifter

It has been tested to 3 times the rated lifting capacity for handling of steel plates, blocks, rounds, press moulds, Machine beds, Coil Bundles, Round blanks, spools and in Horizontal and Vertical Positions etc.

Benefits

Labour saving and time saving.

It works without electricity.

Heavy material can be moved safely & easily by single operator.

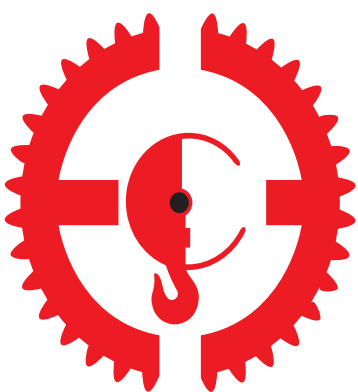

SLING (NYLON, WIRE ROPE, CHAIN)

Slings consist of an endless load-bearing sling made of polyester fiber, protected from dirt and wear with a single- or double-layered cover of polyester fabric. There are two types of covers; side seam with double cover which give a stiffer round sling and the seamless for softer version.

Features of Polyester Webbing :

High lifting capacity | Long lasting | Corrosion resistant | High tensile strength

Safety Factor for slings = 7:1 according to EN-standards.
